*"TIME CONSUMING, INCONVENIENT, NOT THOROUGHLY ENOUGH."*

# TODAY'S METHODS

## THESE METHODS ARE USED BY BOAT OWNERS TODAY!

- small 24V dustbusters
- handheld sweeper
- big and clumsy 230V conventional vacuum cleaner

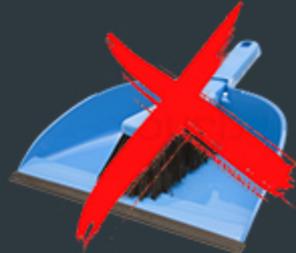

# TODAY'S METHODS

## BUT EXISTING METHODS ARE NOT SATISFYING AND FAIL BECAUSE:

- systems are not powerful enough [24V - 130 watt] for thorough cleaning.
- low to moderate performance.
- these appliances are often of poor quality.
- awkward in use because of entangled powercord.
- limited life span.

"THE PERMANENT VACUUM SOLUTION FOR ALL BOATS."

# BEFLEXX ...supporting mobile living

## THE SOLUTION

BEFLEXX central vacuum cleaner is a combination of proven technology, revolutionary design and ergonomic use.

- plug and play installation.
- easy to fit (28x17x17 cm).
- easy to use.

# THE BENEFITS

## EASY TO APPLY IN NEW BUILD AND EXISTING BOATS.

- puts an end to damages caused by conventional vacuum cleaner such as scratches and rubber markings on cabinets.
- distinction of brand / boat.
- preserving your interior.
- small size, stylish design.
- easy to use and stimulates hygiene.
- small and value added investment for boats.
- to use with 24V or 230V.
