

NEW

Available Now

New for 2007, the BEP ATC fuse holder includes our patented contour lock system (as used in all our battery management products.) This allows you to module as many fuse holders as you like together.

The advantage of this is that it allows you to link the inputs together, or split them apart to allow multiple power groups within one fuse holder eg: switched supply or 24 hour supply.

For the aftermarket the modular system allows you to carry one part number instead of 3 or 4. The 6W-ATC also includes a clip on cover with label positions.

Specifications

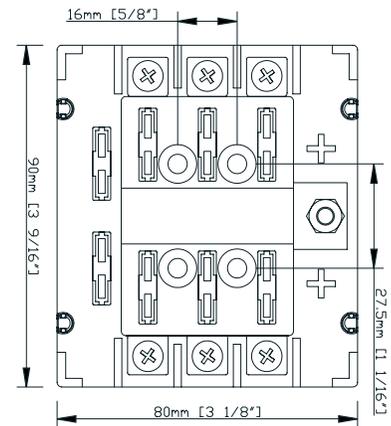

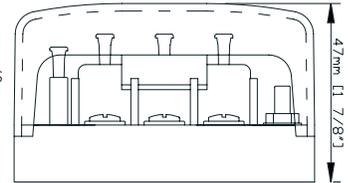

- Maximum Amperage per circuit - 30Amps
- Maximum Amperage per block - 100Amps
- Maximum voltage 32VDC
- Base material - polycarbonate
- Cover material - clear polycarbonate

Clip on cover with label position's for each fuse

Position for spare fuses

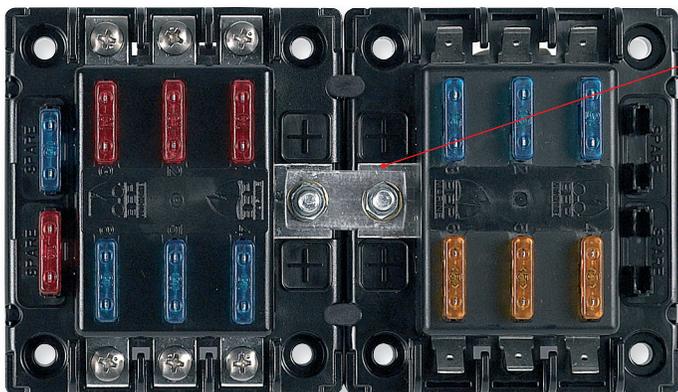

Available with screw terminal or 6.3mm Quick Connect options (see part numbers below).

■ ATC-6W

ATC FUSEHOLDERS	
Part No.	Description
ATC-6W	6 Way fuseholder screw terminals/with cover
ATC-6WQC	6 Way fuseholder Quick Connect/with cover

For Bulk packed product add **B** to part number.
Fuseholder also available without cover for OEM installation.

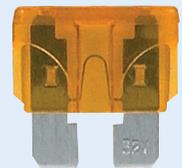

■ ATC-6W

Fusholder Link Part no. BB-LINK 26mm. Ordered separately.

ATC FUSES	
Part No.	Rating
J03A	3 amps
J05A	5 amps
J7.5A	7.5 amps
J10A	10 amps
J15A	15 amps
J20A	20 amps
J25A	25 amps
J30A	30 amps

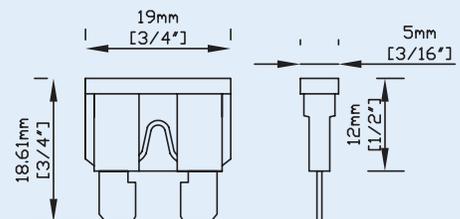

ATC Fuses

■ J05A

Specifications:

- Fuses available 3-30 amps
- Interrupt capacity 1000 amps DC
- Maximum voltage 32 Volts DC

ATC fuse part numbers are for bulk packed product. For display packed product add DSP to end of part number (3 fuses per display pack).
